08:00 PM **Nostradamus Effect: The Third Antichrist?**
History's most acclaimed prophet, Nostradamus, saw the arrival of three antichrists that would plague mankind. But who are they? When will they come and what disasters will they cause? Can we decode the visions of Nostradamus in time to ward off a coming apocalypse? Some say at least two of the prophesied antichrists have already appeared. Clues hidden in Nostradamus's writings point to Napoleon Bonaparte, one of history's most bloodthirsty tyrants and the Emperor of France, as the first. Shockingly precise quatrains also seem to point to Adolph Hitler as the next, and even more terrifying second antichrist. Now, believers search the writings of Nostradamus for evidence that the third antichrist is already here. Will he learn from Napoleon and Hitler? Will he be even stronger and more bloodthirsty? And will his reign signal the start of the end times for mankind?

09:00 PM **Nostradamus Effect: Da Vinci's Armageddon**
Was Leonardo Da Vinci, one of history's great philosophers, artists and engineers, a secret prophet? And did he envision world destruction of such biblical proportions that it haunted him until the end of his days? Clues hidden in Da Vinci's paintings, his re-discovered prophetic "riddles" and the events of his life now suggest that he, too, was influenced by the Nostradamus Effect. 400 years ago, Da Vinci may have intercepted signs and warnings as early as his boyhood. He witnessed a devastating flood that ravaged his city and that seems to have haunted him with depictions of a watery apocalypse similar to the biblical great flood. Are the clues Da Vinci hid within his writings, his sketches and his masterpieces, all a secret code pointing to a great deluge that will wipe out all mankind?

10:00 PM **MysteryQuest: Hitler's Escape**
According to the official public record, Adolf Hitler committed suicide in his underground bunker as allied troops stormed Berlin at the end of World War II. But no one actually saw him die. No body was ever produced. No photographs were ever taken. Some believe Hitler managed to escape, and for years there were sightings of the former dictator in many parts of the world. Then, in the 1990s the Russians revealed secret evidence taken from Hitler's bunker decades earlier that they said proved he had died there. Among the evidence is a piece of skull. MysteryQuest obtained access to this evidence for testing and the results are startling.

11:00 PM **Nazi Prophecies:**
Some say that the rise of Nazi Germany was foretold in prophecies that began in biblical times and continued for centuries until the emergence of Adolf Hitler and the Third Reich. These predictions paint a chilling portrait of an evil, sinister force that would terrorize the world. We expose the prophecies throughout history that foresaw Hitler's rise and fall. The program includes biblical prophecies in the Book of Ester and the Book of Daniel, the haunting predictions of Nostradamus, the disturbing and exact predictions of Hitler's personal clairvoyant Eric Jan Hanussen, and more...much more. Plus, we delve into the roots of Nazism, including Germanic and Aryan legends, the occult, mysticism, and astrology.
