

**EBEB 2012 - XI BRAZILIAN MEETING ON BAYESIAN STATISTICS**

We, the undersigned, protest the actions of the government of Argentina in fining and threatening criminal sanctions against those who collect price statistics different from those of the government.

We believe that this violates the freedom of expression of those fined and threatened, and attempts to preclude the people of Argentina from learning important information about their economy.

Amparo, Brazil, March 20, 2012.
