

Sociedad Latinoamericana de Probabilidad y Estadística Matemática

Boletín SLAPEM - Junio 2025

CONTENIDO:

- 1. NOTICIAS GENERALES**
- 2. EVENTOS**
- 3. OPORTUNIDADES LABORALES Y DE ESTUDIOS DE POSGRADO**

Para información a ser considerada en el próximo número, por favor contactar a Sergio I. López < silo@ciencias.unam.mx > antes del 31 de Julio de 2025.

1. NOTICIAS GENERALES

*** [Bernoulli Society Bulletin e-Briefs Issue 66, June 2025](#)

The Bernoulli Society Bulletin e-Briefs is an electronic bulletin of the Bernoulli Society intended as a device to share in brief manner latest news and relevant information with all members of our society.

*** [Bernoulli 50: Collection of Videos and Interviews](#)

As part of celebrating and recording our Society's history on the occasion of its Golden Jubilee, the Society curated a collection of several videos over the last year. They include a commemorative video, putting the evolution and role of the Society into historical perspective, and several interviews with Presidents and Scientific Secretaries over the years. You can now access these videos at: <https://bernoullisociety.org/bernoulli50>. We are grateful to S.-X. Chen, R.D. Gill, P. Jagers, W.S. Kendall, E. Mammen, T. Mikosch, V. Pérez-Abreu, N. Reid, J.L. Teugels, M.E. Vares, and E. Waymire for taking part in this laborious project.

*** [General Assembly of the Bernoulli Society 2025](#)

In a break with tradition, the next General Assembly of the Bernoulli Society –including the transfer of the Bernoulli book– will take place at the SPA 2025 meeting rather than the ISI World Statistics Congress (October 5–9, 2025). This is due to the ISI WSC being exceptionally moved to autumn instead of its usual timing in the summer, thus not being well-aligned with the Society's administrative calendar.

*** [New Researcher Award in Probability Theory – Call for Applications](#)

The Bernoulli Society welcomes applications to the 2026 New Researcher Award. Eligible candidates are active researchers in Probability Theory who obtained the PhD degree on or after June 30, 2020, and who are regular members of the Bernoulli Society. An extension may be given to those having had disruptions after receiving the PhD, such as parenthood. Diversity among the awardees is one of the Society's goals, and therefore women and members of under- represented groups are particularly encouraged to apply. Candidates should apply through the web form [here](#) and send the required documents to the e-mail address indicated in the form, by June 30, 2025. More details on this award can be found [here](#).

*** [David G. Kendall Award for Young Researchers – Call for Nominations](#)

The Award Committee invites nominations for the Bernoulli Society-Royal Statistical Society David G. Kendall Award for Young Researchers. The award is in honor of David G. Kendall, who was the first president of the Bernoulli Society, and was awarded the Guy Medal in Silver (1955) and in Gold (1981) of the RSS. The 2025 edition of the award is organized for young researchers in Probability Theory. Nominees should be researchers with significant achievements and great potential in their research field, who are members of either the Bernoulli Society or the Royal Statistical Society, and who obtained their PhD after January 1, 2017. Nominations from under-represented groups are particularly encouraged. The nomination process is open from 1 April 2025 and closes on 30 June 2025. The complete call can be found [here](#).

*** [Sad News](#)

It is with great sadness that we learned of the death of Professor Thomas G. Kurtz. He passed away on April 19, 2025. We extend our sincere condolences to his family and friends.

2. EVENTOS

*** [Stochastic Processes and their Applications 2025](#)

The 44th Conference on Stochastic Processes and their Applications, will be held in Wrocław, Poland from 14 to 18 July 2025.

SPA Conferences are organised under the patronage of the Bernoulli Society <https://www.bernoullisociety.org/> and may be regarded as the most important series of international meetings on the theory and applications of stochastic processes.

*** [Mathematical Congress of the Americas 2025](#)

The goal of the Mathematical Congress of the Americas (MCA) is to internationally highlight the excellence of mathematical achievements in the Americas and foster collaborations among researchers, students, institutions and mathematical societies in the Americas.

The fourth Mathematical Congress of the Americas, MCA 2025, will take place in Miami, Florida, USA; the dates are July 21-25, 2025.

For opportunities for participants of MCA 2025 to apply for financial support, please visit this [link](#).

*** [First Joint Meeting Brazil-Mexico in Mathematics 2025](#)

To be held in Fortaleza, Brazil; the dates are September 8-12, 2025. The organizing committee of the First Joint Meeting Brazil-Mexico in Mathematics 2025 is now inviting proposals for thematic sessions. The deadline for submission is October 17, 2024. Our aim is to ensure strong mathematical representation from both Brazil and Mexico among the organizers and speakers for 20-25 thematic sessions.

Structure of a Thematic Session: Each session will consist of up to nine 30-minute talks focused on a specific area of pure or applied mathematics. Ideally, each session should be led by at least two organizers, with representation from both countries.

*** [65th ISI World Statistics Congress 2025](#)

The 65th ISI World Statistics Congress will be held October 5-9 2025 in The Hague, Netherlands. It takes place every two years, since 1887, and it represents the leading congress on statistics and data science worldwide. The programme will span the full field of statistics and data science including academia, business, industry, government and official statistics in line with the breadth of the ISI and the Associations affiliated with the ISI. Please note that the conference has been postponed from July to October. Refer to the conference website for any updates, as well as for further details on the conference.

*** [XVII Latin American Congress of Probability and Mathematical Statistics \(CLAPEM\)](#)

Promoted by the Latin American Society of Probability and Mathematical Statistics (SLAPEM) and the Latin American Regional Committee of the Bernoulli Society, is the main event in these fields in the region. It occurs every two/three years and attracts researchers and students from the most important Latin American centers. It has already been organized in Venezuela, Uruguay,

Mexico, Brazil, Chile, Argentina, Cuba, Peru, Colombia, and Costa Rica. The next edition will be held on March 2-6, 2026, in Montevideo, Uruguay.

***[International Congress of Mathematicians 2026](#)

Está abierta la convocatoria para organizar eventos y conferencias satélites al Congreso Internacional de Matemáticas 2026 que se llevará a cabo en Filadelfia, Estados Unidos, en julio de 2026.

Los eventos y conferencias podrán ser en los meses que van de mayo a septiembre del 2026 y tendrán que tener lugar en alguno de los tres países: Canadá, Estados Unidos o México.

La National Science Foundation (NSF) ha sido informada de que habrá un mayor número de solicitudes para eventos durante ese año y la Fundación Simons también podrá dar apoyos para algunos de los eventos.

El Comité de los eventos y conferencias satélites no dará apoyos económicos, solo aprobará bajo ciertos criterios qué eventos serán anunciados en la página del ICM, y por lo tanto serán reconocidos como eventos satélites.

Los criterios y las fechas para solicitar, así como toda la información necesaria, se encuentra en esta [página](#).

El plazo de postulación es del 1 de marzo 2024 al 31 de diciembre 2025.

*** Seminarios online en la región

- [Aleatorias y Normales](#). El proyecto de "Aleatorias y Normales" articula una red de mujeres latinoamericanas (en su definición más amplia) que trabajan en investigación en áreas de probabilidad y estadística. El objetivo principal es dar difusión a sus intereses académicos, para crear lazos de colaboración, y apoyarse en las prácticas tácitas de la profesión (por ejemplo, obtención de recursos para viajes, trabajo en equipo, asesoría de estudiantes, etc.). El proyecto sostiene un seminario mensual de agosto a noviembre y de enero a mayo. Cada reunión tiene una presentación tipo coloquio sobre el área de investigación de una de las integrantes del grupo (40 min + 5 min de preguntas) seguida de charlas informales sobre algún tema relativo a la vida académica.

- [Colmea](#). Colóquio Interinstitucional “Modelos Estocásticos e Aplicações”. Organized by Rio de Janeiro science institutions bimonthly.
- [One World Probability Seminar](#). The One World Probability project is an online platform for research seminars, workshops and schools in probability theory. Started during the Covid-19 epidemic in 2020, the project intends to bring together researchers from all over the world in a virtual and inclusive environment. The project is a community wide initiative supported by the [Bernoulli Society](#) and the [Institute of Mathematical Statistics](#).
- [Probability Webinar \(Universidade Federal do Rio de Janeiro\)](#). Quando forem online, as palestras ocorrerão via Zoom às segundas-feiras às 15h30, a menos de algumas exceções devidamente indicadas. Quando forem presenciais, as palestras ocorrerão na sala C-116 às segundas-feiras às 15h30, a menos de algumas exceções devidamente indicadas. Todos os seminários são ministrados em inglês. Coordenação: Professor [Giulio Iacobelli](#) e Professora [Maria Eulalia Vares](#).
- [Seminario de Probabilidades de Chile](#). Nace como una instancia de encuentro para la comunidad de probabilistas que residen en Chile, como una forma de fortalecer lazos, generar colaboraciones y potenciar la investigación de las probabilidades en Chile. Si desea recibir novedades y participar ya sea exponiendo u organizando un seminario por favor enviar un correo electrónico a seminarioprobabilidadesdechile@gmail.com . El seminario cuenta con el canal de Youtube: <https://www.youtube.com/@spchilecl8234>
- [Seminario de Probabilidad y Estadística de Uruguay](#). Reúne docentes y estudiantes de grado y posgrado del [Centro de Matemática](#) de la Facultad de Ciencias, del [Instituto de Matemática y Estadística "Rafael Laguardia"](#) de la Facultad de Ingeniería, del [Departamento de Métodos Cuantitativos](#) de la Facultad de Ciencias Económicas y Administración, del [Departamento de Matemática y Estadística del Litoral](#) del Centro Universitario del Litoral Norte, del Centro Universitario del Noreste, y del [Departamento de Modelización Estadística de Datos e Inteligencia Artificial](#) del Centro Universitario de la Región Este. Se reúne los viernes de 10:30 a 11:30 (hora de Uruguay).
- [Seminario de Probabilidad y Mecánica Estadística](#). El seminario está a cargo de grupos de probabilidad de Brasil, Portugal, Italia, EEUU, Francia y Argentina. Se reúne semanalmente los miércoles a las 13:00, horario Brasilia (16:00 UTC).

3. OPORTUNIDADES LABORALES Y DE ESTUDIOS DE POSGRADO

***** Tenure-Track Position in Probability in Mathematics for the Natural Sciences at the Institute of Mathematics at UNAM**

Location: Cuernavaca branch (Morelos, Mexico)

Preferred profiles: Probability or topology with interdisciplinary orientation toward biology and other sciences, biomathematics, and modeling and simulation in medicine and the natural sciences

Details: [PDF file](#)

MathJobs post: <https://www.mathjobs.org/jobs/list/26568>

Deadline: June 25, 2025

***** Tenure-Track Position in Applied Mathematics at the Institute of Mathematics at UNAM**

Location: Cuernavaca branch (Morelos, Mexico)

Preferred profiles: Statistics, finance, data science, and operations research

Details: [PDF file](#)

MathJobs post: <https://www.mathjobs.org/jobs/list/26569>

Deadline: August 1, 2025
