```
#include <stdio.h>

int main(int argc, char *argv[])
{
  char *v=argv[1];
  int M=2048;

  int h=0, a=256;

  for (; *v != '\0'; v++)
    h=(a*h+*v)%M;

  printf("%d\n", h);

  return 0;
}
```
